Our Popular Scholarship Contest

The time will soon be here when the final hustling for first place begins. It has been intimated that in the last few days there will be many surprises, due to the hoarding of ballots for this final sprint. In fact, it has come definitely to our knowledge that some of those in second place hold secretly more than enough to put them in first place. To those now in the lead we would say, Don't for a moment cease work. Keep at it as though you were a tail-ender!

Your Heart.

When Your Heart
Fails to Pump Your
Blood, Trouble
Results.

Have you heart trouble?

You have, if you find it hard to breathe after walking up stairs, exercising, etc. If you have pain in your left side, in chest, back or shoulder. If you suffer from cold extremities, pale face, blue lips, dry cough, swollen ankles.

If you have fainting spells, breast pain, palpitation, redness of the face, discomfort in sleeping on one side.

The only scientific treatment for this whole train of troubles is Dr. Miles' New Heart Cure.

Dr. Miles' New Heart Cure is the prescription of a famous specialist, whose great success in treating obstinate nervous heart disease has made his name pre-eminent in the medical and scientific world.

The medicine will cure you. We know it. We want you to prove it. If first bottle does not benefit, your druggist will give you back your money.

"I have for several years suffered at times with heart trouble. I got so bad I could not sleep half the night, and had to sit up on the side of the bed lots of times to get breath. Three of my brothers have died of heart trouble, and I thought I was going the same way, but about two and a half years ago I got a pamphlet about Dr. Miles' New Heart Cure and thought I would try a few bottles. After using them I recovered, and have had better health since then than before for several years. I can heartily recommend them for heart trouble."—REV. JERRY HURT, Pastor Baptist Church, Hurt, Kans.
